(54) RESIDENTIAL PARKING EQUIPMENT

(57) Abstract:

PURPOSE: To effectively use ground without spoiling beautiful appearance by setting a cover for covering a pit set on the garden of a residence, to set a truck under the cover, and by setting a power equipment for moving the truck vertically upward or downward.

CONSTITUTION: When the switch of an operating box 14 is turned ON, then a motor is rotated, and a cover 4 starts opening, and when the cover 4 comes in contact with a limit switch, then the motor is stopped. After that, when a car 6 is driven and is mounted on a truck 7 and a descending switch is turned ON, then the plunger 9 of a power equipment starts descending, and when the truck 7 comes in contact with the limit switch 11, then the truck 7 is stopped. After that, when a switch is turned ON, then the cover 4 starts closing, and when the cover 4 comes in contact with the limit switch, then the motor is stopped, and a pit 3 is perfectly covered with the cover 4.
